

The City of Redding invites applications for the position of:

ELECTRIC UTILITY ANALYST (COMPLIANCE)

\$6,025.00 - \$8,478.00 per Month

The City of Redding Electric Utility Resources Division is seeking highly qualified candidates for an Electric Utility Analyst position. This position will assist in the development and administration of compliance and internal controls programs, monitoring and auditing compliance with: North American Electric Reliability Corporation (NERC) reliability standards and reporting for mandatory greenhouse gas programs, market-based greenhouse gas regulatory compliance programs (California cap-and-trade), and mandatory renewable programs.

The City of Redding offers competitive pay, excellent benefits and a great work environment.

IDEAL CANDIDATE

The ideal candidate has knowledge of electric system transmission and distribution systems; electric power generation; NERC reliability standards; greenhouse gas reporting requirements; California Cap-and-Trade and renewable energy regulations; regulatory compliance and internal controls programs; research, interpretation, and communication of applicable regulations; and ability to collaborate and coordinate with staff and regulatory agencies on compliance matters.
