

**The City of Redding invites applications for the position of:**

**ELECTRIC MANAGER - ENGINEERING**

**\$14,448.00 - \$18,783.00 per Month**

The City of Redding - Electric Department (REU) is accepting applications for the position of Electric Manager - Engineering to manage the Engineering section within the T&D Asset Management Division (T&D Assets).

This division is responsible for design, construction, and maintenance of 70 Miles of 115KV transmission, 740 miles and 12 KV distribution and eleven substations. The division includes two managers, one overseeing the Line section, and one overseeing the Engineering section.

The Electric Manager - Engineering directly oversees four functional groups, each led by a supervisor:

- asset engineering
- substations
- service planning
- capital projects

The ideal candidate for this position will have the leadership skills to manage this cross functional team of highly qualified technical staff as they execute REU's 2021-2026 Strategic Plan with strategic priorities to Mitigate Risk, Maximize Reliability and Meet Regulations. Example of current projects include:

- Wildfire Mitigation projects such as system hardening, sectionalizing, protection system upgrades and many more
- Aging infrastructure replacement on REU's overhead and underground distribution system
- Distribution Modernization projects including fiber optic communication between substations, line capacity upgrades and network metering
- Substation modernization and physical security improvements
- Design and build a 12th substation
